

NEIGHBORHOOD HERO

Dr. Karolyn Verville | Sunshine Haven Wildlife Hospital

Dr. Karolyn Verville is a certified wildlife rehabilitator who cares for orphaned and injured wild animals. She founded Sunshine Haven at her home where she and other citizen scientists and wildlife biologists provide temporary sanctuary for local wildlife. Once the animals receive care and are rehabilitated, they are then released back into their natural habitat. They will take in all wildlife mammals, birds, reptiles found within urban areas. It is estimated **Sunshine Haven rehabilitates over 2,000 animals each year!**

By helping to keep the urban wildlife population disease free, Dr. Verville is keeping her neighborhood healthy.
